MOSQUITO NET POLICY		

- The placing of mosquito nets in front of windows, front and/or rear doors is permitted under the following conditions:
 - Mosquito nets should be light grey/silver grey in colour
 - Mosquito nets must be tightly fitted within a sturdy frame
 - Mosquito net frame should be made of aluminium in aluminium frame or wood in a wooden window frame

- **WINDOWS**
 - For opening windows the mosquito net must be placed inside of the window.
 - For sliding windows the mosquito net may be placed on the outside.

- **DOORS**
 - Mosquito nets may only be affixed to security gates. Lose mosquito net door frames are not permitted.
 - Erection of said windows and doors may only commence once written authorisation has been issued by the Board of Trustees
 - Erecting the said windows/doors is for the owner's account and all future maintenance thereof will be the owner's responsibility.

- By completion of the construction of the mosquito nets the Resort Manager must be notified so that he can do inspection to determine whether all the conditions have been met
