Wooden Gates		

Definition: A movable barrier, usually hinged, for closing an opening in a wall, fence, or enclosed area

This Policy is applicable to Courtyards and Carports (this is not a security gate applicable to Varandas, front and back doors)

- The gate is constructed of Timber and painted with two coats of mahogany exterior wood sealer
- Slats to be placed vertically with gaps or butted against each other for privacy
- No shade cloth is permitted to be affixed to the gate.
- Gate must not be higher than the precast wall adjacent to it.
- Owner to apply for permission and permission will be granted based on the merits applicable to the situation.
- Only the gate that is used by the resort staff to enter for maintenance will be maintained by the resort.
