Generators		

Definition: Generators in Palinggat Oord

This Policy is applicable to prevent generators in Palinggat Oord – Stilbaai.

- At the Annual General Meeting (AGM) held on 17 December 2015 the owners present voted that no generators are to be used in the resort.
the exceptions are
- A Silent generator (Manufactured for the purpose of being able to be run in residential areas and comply with noise restrictions) can be used during the hours affected by loadshedding
Generators can be operated during daylight hours by contractors and homeowners for the purposes of carrying out remedial work when electrical power is not available.
Local bye-laws and complex rules are to be adhered to regarding times and workdays - ie Monday to Friday 08.00am to 05.00pm
- If the generator is connected into the house, an electrical certificate needs to be handed in at the office stating that the additional installation required for this complies with the necessary electrical standards. If this certificate is not provided at the office the resort manager can request that the generator be switched off, until the certificate is provided.
